## DESCRIPTION

---

The **Soft bicycle stand** is a continuation of the Soft city furniture line, which includes city benches, planters, litter bins, street pillars, and tables. The Soft line is distinguished by its modern look, a characteristic slightly inclined shape of the furniture.

The stand is constructed of steel and wood. Between two steel sheets there is a wooden element of decorative character. The stand can be made in carbon steel, galvanized and powder coated in the RAL colour indicated by the customer, or in stainless steel. The wood we use to manufacture the stand is coniferous wood of domestic origin, available in several variants of varnish. For an extra charge there is a possibility to choose exotic wood.

Sheets are 10 mm thick which translates into strength and stability of the structure. The stand has footrests with holes for screwing it to the base with rawbolts.

The stand allows to fasten at least two bicycles.
