- 7

## DESCRIPTION

The **05.052.SN bicycle stand** is an excellent solution in the category of **urban furniture**, designed by Tomasz Szpyma, combining functionality, durability and modern design. The stand is made of high quality stainless steel (Aisi 304), which ensures resistance to corrosion and increases the durability of the product. It is ideal for public spaces such as parks, streets or commercial areas, offering a safe place to park bicycles. The bicycle stand has been designed to be **grouted** in, guaranteeing a robust and stable installation. The design offers different parking configurations, from 3 to 7 bicycles, making it flexible and adaptable to the specific needs of users. The rack is 42 cm wide, 200 cm long and 80 cm high from the ground surface, ensuring easy access and comfortable use. The overall appearance is very aesthetically pleasing, confirming that the stand belongs to the **Modern** product line. The steel tubes and hollow profiles used in the construction are not only practical, but also add to the overall modern and minimalist look. This durable and reliable row-type structure is...
