DESCRIPTION

The Sofa planter is a high specification model designed firmly within the modernist tradition. Consisting of a stainless steel frame with softwood panels, the planter is ideal for schemes where quality, design, price and durability are key requirements. The planter includes a stainless steel liner with an insert to prevent the insertion of litter between liner and frame. The classic design of this rectangular planter will fit perfectly in the home or outdoors. It could be used as an accent piece for a garden, balcony, patio or as a modular item to create an original installation, f.e.g. in shopping centres. We can supply planters any size, height design and plan shape.
