DESCRIPTION

The Soft 02.212 bench is a contemporary version of a dual bench. It merges two traditional designs into a piece that's not only practical but also adds a decorative touch to urban decor, offering extensive layout options. The Soft bench is crafted from black or stainless steel. The manufacturer primarily suggests opting for stainless steel as the core material due to its visual appeal and its durability against heavy use and corrosion. The Double Soft bench is ideal for public areas with plenty of room—such as shopping centers, office complexes, or residential developments.
