

OPTIONS

Construction:

- stainless steel (Aisi 304)

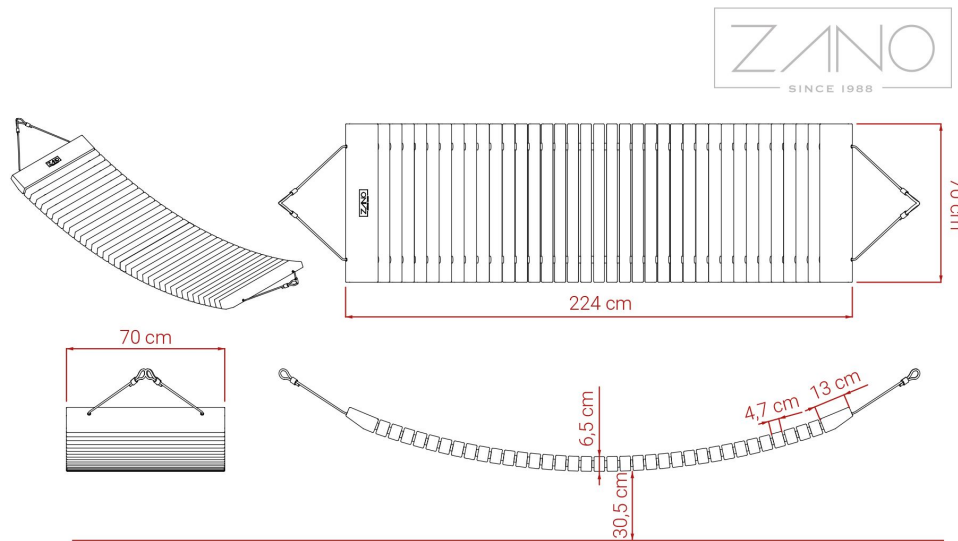

Seat:

- hardwood of European origin
- oiled exotic wood
- premium exotic wood

DESCRIPTION

The WAVE city hammock is crafted for relaxation and enjoyment in various public settings like parks, gardens, playgrounds, promenades, and plazas. Its ergonomic design ensures comfort while its smooth surfaces are simple to maintain.

Featuring a welded assembly paired with a wooden lounger, the hammock incorporates a framework of 10 mm thick stainless steel plates (grade 1.4301) and 140 mm diameter stainless steel pipes (grade 1.4301). The hammock itself is constructed from 37 exotic wood planks – 35 planks measuring 47 x 65 mm and 700 mm in length, along with 2 planks of 130 x 65 mm and 700 mm length, all treated and double-oiled for durability. The planks are connected with dual 6 mm stainless steel ropes. Holes designed for these ropes are spaced 500 mm apart. A 10 mm gap between planks is achieved using spacer sleeves. All components of this street furniture must be securely installed as per the manufacturer's technical guidelines. The manufacturer is not liable for any damage resulting from improper use or failure to adhere to these guidelines.

GENERAL TECHNICAL DATA

Dimensions:

- width: 131 1/2 in
- height: 32 3/4 in
- depth: 27 1/2 in

Weight:

- 331 lb

Materials:

- exotic wood
- construction - stainless steel
