DESCRIPTION

Soft line furniture is highly favored by architects and is prominently featured in shopping centers, office buildings, courtyards, parks, plazas, and train stations. Constructed from powder-coated stainless steel or carbon steel, and available with domestic or exotic optional wood, these pieces are both durable and stable. Their unique design seamlessly integrates into both traditional and contemporary architectural styles. The Soft freestanding armchair was specifically designed as outdoor furniture ideal for spaces where a full-sized bench is too bulky, such as in park settings. A Soft park table can also complement the setting.
