

OPTIONS

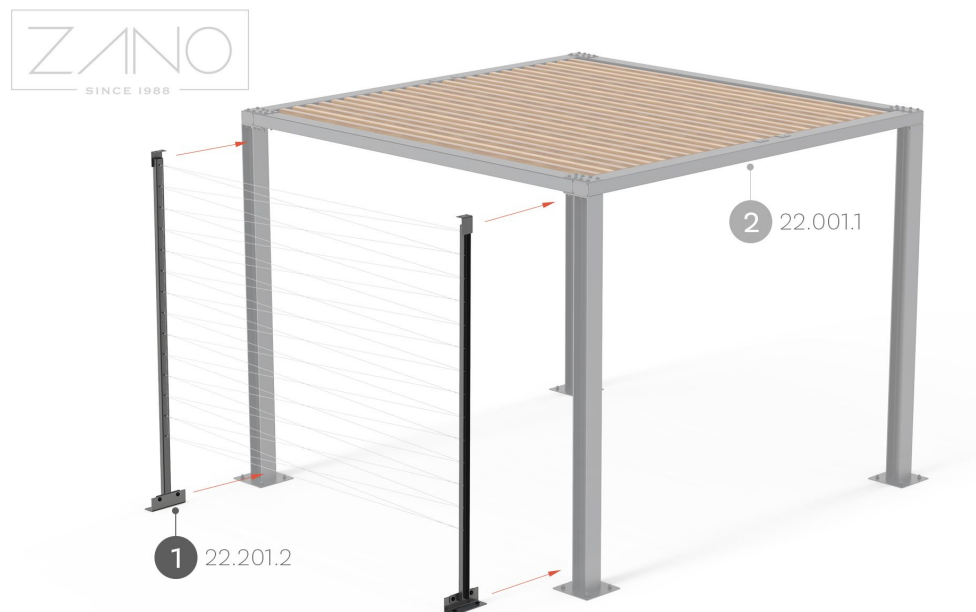

Construction:

- carbon steel (s235Jr)

DESCRIPTION

The pergola trim panel includes stainless steel cables that act as supports for climbing plants. These cables are fastened to flat bars affixed to the pergola structure. Crafted from carbon steel, these bars are galvanized and can be powder coated in any RAL color selected by the customer. Climbing plants can be rooted directly in the soil or in two optional pots from the Stilo series, which are available for purchase.
