

OPTIONS

Construction:

- carbon steel (s235Jr)
- stainless steel (Aisi 304)

Housing:

- European coniferous wood
- hardwood of European origin
- oiled exotic wood
- premium exotic wood

Mounting method:

- to screw

Contribution:

- galvanized sheet insert

DESCRIPTION

The Altus five-segment recycling trash can is designed for sorting waste and blends sleek steel with high-quality wood for a visually appealing look. Clients can select either structural steel coated in RAL paint or stainless steel for the body, and spruce or exotic wood for the accents. This model features four compartments, each outfitted with a galvanized liner. For waste sorting, you have the option to use just the insert or integrate color-coded disposable bags. The Altus bin is highly practical – each wooden slat is engraved with labels indicating what goes in each bin, and these inscriptions can be customized to meet specific needs. The Altus recycling bin can either stand alone, ideal for places like mall walkways, or be securely mounted to the ground. Altus represents the fusion of modern design and elegance in street furniture while promoting environmental sustainability.

GENERAL TECHNICAL DATA

Dimensions:

- height: 32 1/4 in

Capacity:

- capacity: 66 gal

Materials:

- stainless steel profiles
- galvanized sheet insert
- wooden planks
