

## OPTIONS

### Construction:

- carbon steel (s235Jr)
- stainless steel (Aisi 304)

### Housing:

- European coniferous wood
- hardwood of European origin
- oiled exotic wood
- premium exotic wood
- HPL board

### Mounting method:

- to screw

### Contribution:

- galvanized sheet insert

## DESCRIPTION

The Pavo recycling trash bin is an expanded four-compartment iteration of the well-known urban trash bin. This enhancement allows it to cater to the latest standards in waste segregation mandates. Each section is purpose-built for one of the following: paper and cardboard, metals and plastics, glass, organic waste, and non-recyclable trash.

The standard model of this trash bin is crafted from stainless steel and exotic wood. However, options are available in carbon steel, which is galvanized and powder-coated, as well as in spruce or pine wood (these domestic woods are finished with varnish). Alternatively, the wood elements can be substituted with HPL laminate.

## GENERAL TECHNICAL DATA

**Dimensions:**

- width: 53 1/2 in
- height: 41 in
- depth: 11 3/4 in

**Weight:**

- European coniferous wood: 317 lb
- hardwood of European origin: 344 lb

**Capacity:**

- number of containers: 4 szt.
- capacity of one container: 13 1/4 gal

**Materials:**

- construction - steel, wood
- container - galvanized steel

**NOTE:** The drawings do not reflect the actual dimensions of the foundation. These are only sample installation diagrams taking into account the type of anchoring and the material of the substrate to which to attach the furniture.

The size of the foundation depends on local foundation conditions.

### INSTALLATION TO PAVING WITH FOUNDATION

#### Installation description

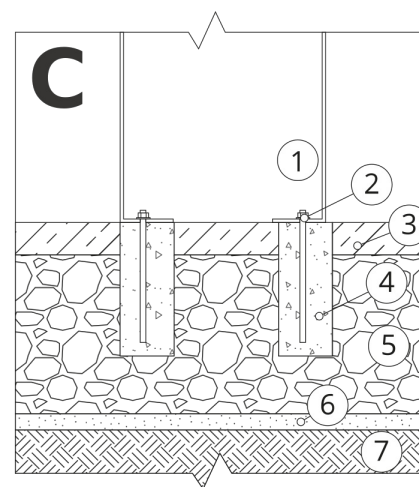

1. ZANO product
2. Quick-attachment / quick-attachment or chemical anchor
3. Stone paving / concrete paving / stone slabs / concrete slabs
4. Sand ballast (approximately 2 - 4 cm)
5. Stone aggregate substructure
6. Concrete foundation of C16/20 class (top surface of concrete 10 cm below paving surface)
7. Local land

### MOUNTING TO PAVING

#### Installation description

1. ZANO product
2. Quick-attachment / quick-attachment or chemical anchor
3. Stone paving / concrete paving / stone slabs / concrete slabs
4. Sand ballast (approximately 2 - 4 cm)
5. Stone aggregate substructure
6. Local land

### MOUNTING TO CONCRETE / ASPHALT

#### Installation description

1. ZANO product
2. Quick-attachment / quick-attachment or chemical anchor
3. Fixed restrained surface, such as concrete or asphalt
4. Concrete foundation of C16/20 class (top surface of concrete 10 cm below paving surface)
5. Stone aggregate substructure
6. Sand ballast (approximately 2 - 4 cm)
7. Local land

### MOUNTING TO CONCRETE FOUNDATION

#### Installation description

1. ZANO product
2. Quick-attachment / quick-attachment or chemical anchor
3. Concrete foundation of C16/20 class (top surface of concrete 10 cm below paving surface)
4. Local land
