

OPTIONS

Construction:

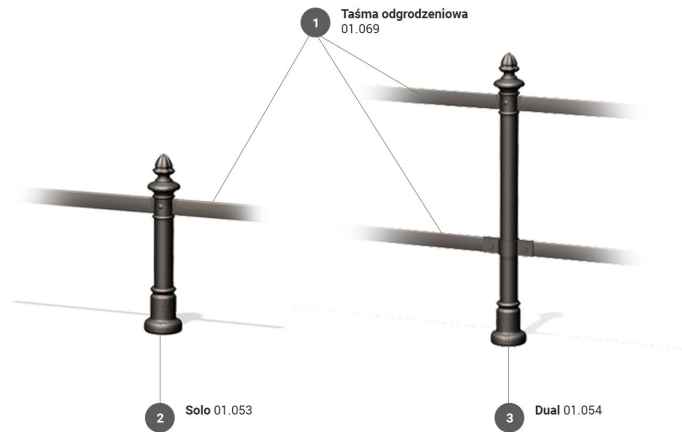

- carbon steel (s235Jr)

DESCRIPTION

Separation tape is a steel profile measuring 4 cm wide and 0.8 cm thick, used between street posts. It can extend up to 250 cm from the center of one post to the center of the next. This profile is crafted from carbon steel, is galvanized, and receives a powder coating in a customer-selected color RAL color.

This tape is available in sets alongside Solo and Dual posts. It is priced per meter with a maximum single segment length of 250 cm.
