DESCRIPTION

The Simple recycling garbage can is distinguished by its simple body, which, combined with the materials used, makes it very elegant and modern.

The garbage can is made entirely of steel. The waste bins are made of stainless steel. The canopy, and the walls of the garbage can are made of stainless steel or carbon steel painted in any RAL color.

Each of the bins has a special sign in the upper part to facilitate waste segregation. As a standard, the containers can segregate paper, glass and plastic. Each compartment contains a removable insert made of galvanized sheet metal for more convenient emptying of the garbage can. The capacity of each insert is 52 liters.
