

## OPTIONS

### Construction:

- carbon steel (s235Jr)
- stainless steel (Aisi 304)

### Seat:

- European coniferous wood
- hardwood of European origin
- oiled exotic wood
- premium exotic wood

### Mounting method:

- to screw

## DESCRIPTION

The Travetto bench features a sleek design with classic lines that enhance the ambiance of any contemporary urban setting.

Travetto is a bench combining wood with a metal framework, available in either black or stainless steel. Unlike typical benches that stretch 2 meters, the Travetto extends to **3 meters** making it exceptionally distinct from similar offerings.

The vertically placed planks used for seating offer **increased resistance** to bending. Further stability is provided by a stainless steel bar that maintains consistent spacing between planks and **fortifies the structure**. Three short planks undergird the bench, offering ample support for the back, making it appear robust without seeming bulky.

A unique aspect of **this** bench is its **modular design**, **allowing for multiple benches to be linked together, potentially creating a single bench up to 15 meters long**. Both the wood and the steel are treated with protective coatings to resist harsh weather conditions, with the steel also featuring durable galvanization and customizable powder coating in any hue from the Ral color chart....

## GENERAL TECHNICAL DATA

### Dimensions:

- width: 19 1/4 in
- length: 117 3/4 in
- height: 16 1/4 in

### Weight:

- 306 lb

**NOTE:** The drawings do not reflect the actual dimensions of the foundation. These are only sample installation diagrams taking into account the type of anchoring and the material of the substrate to which to attach the furniture.

The size of the foundation depends on local foundation conditions.

### INSTALLATION TO PAVING WITH FOUNDATION

#### Installation description

1. ZANO product
2. Quick-attachment / quick-attachment or chemical anchor
3. Stone paving / concrete paving / stone slabs / concrete slabs
4. Sand ballast (approximately 2 - 4 cm)
5. Stone aggregate substructure
6. Concrete foundation of C16/20 class (top surface of concrete 10 cm below paving surface)
7. Local land

### MOUNTING TO PAVING

#### Installation description

1. ZANO product
2. Quick-attachment / quick-attachment or chemical anchor
3. Stone paving / concrete paving / stone slabs / concrete slabs
4. Sand ballast (approximately 2 - 4 cm)
5. Stone aggregate substructure
6. Local land

### MOUNTING TO CONCRETE / ASPHALT

#### Installation description

1. ZANO product
2. Quick-attachment / quick-attachment or chemical anchor
3. Fixed restrained surface, such as concrete or asphalt
4. Concrete foundation of C16/20 class (top surface of concrete 10 cm below paving surface)
5. Stone aggregate substructure
6. Sand ballast (approximately 2 - 4 cm)
7. Local land

### MOUNTING TO CONCRETE FOUNDATION

#### Installation description

1. ZANO product
2. Quick-attachment / quick-attachment or chemical anchor
3. Concrete foundation of C16/20 class (top surface of concrete 10 cm below paving surface)
4. Local land
