DESCRIPTION

The Clipo bench is a fresh innovation on the market, blending the sophistication of a wooden bench with the durability of a steel frame.

The streamlined seat design lacks a backrest and can seat multiple people comfortably. The U-shaped steel framework lends the piece a touch of simplicity, elegance, and style. This rectangular bench is versatile due to its interconnected legs, allowing it to stand alone or be anchored using wall plugs. Perfect for enhancing shopping centers, bringing a touch of elegance to gardens, or as a functional fixture in parks. It's also quite suitable for contemporary housing developments.
