- 120L cartridge

DESCRIPTION

Trash garbage can, actually an enclosure for a standard container with a capacity of up to 120 liters. Bent, bolted and welded structure, made of steel sheets with a thickness of 1.5, 2 and 3 mm, combined with wooden planks.

There are two material versions to choose from:

- carbon steel S235JR, galvanized and powder coated according to RAL palette,
- stainless steel 1.4301 with polished finish.

The customer can choose from three variants of wood:

- European coniferous (soft) wood, impregnated and varnished twice (5 colors to choose from),
- European hardwood, oiled,
- exotic hardwood, impregnated and oiled twice (5 species to choose from).

The garbage can is designed for one standard plastic waste bucket with a capacity of 120 liters. Access to the garbage can is possible through the rear lockable door. It is possible to personalize the garbage can by:

- milling...
